## Welcome to Bureau Securitas

**Bureau Securitas** is a security advisory company providing **security solutions** to international clients at Government, International Agency and Corporate level. As a wholly owned subsidiary of a mini conglomerate with diverse interests Bureau Securitas' position in the structure of the group is the foundation of its independence and political penetration to the highest levels in selected emerging countries.

This independence and group support enables a 'best of breed' policy when creating complex mixes of management personnel, skills and equipment to propose to clients.

With its base in Malta and associated group offices in London, UAE, Tajikistan, Uzbekistan, Georgia and Sri Lanka, as well as its network of cooperation partners in USA, Ecuador, Nigeria, Ghana, Sudan, Rwanda and Uganda, Bureau Securitas has an international approach to the security challenges of its clients.

**Discretion and Confidentiality** are the fundamentals of our business.

## Company Profile

Bureau Securitas Ltd is a security advisory company registered in Malta. It is a wholly owned subsidiary of British Borneo Holdings, a mini conglomerate with corporate headquarters in Malta. The group has substantial commercial experience and a world-wide client-base developed over the last 15 years with interests in public procurement, logistics and shipping, oil exploration, mining, insurance and security.

The group has built up strong political and business links in many countries. Group interests extend around the globe and have developed with strategic partnerships in the UK, US, Far East, Africa, South America, Eastern Europe and the Middle East.

From the Head office in Valletta, group operations cover Ecuador, Indonesia, Malaysia, Sri Lanka, Bangladesh, India, UAE, Oman, Qatar, Libya, Sudan, Uganda and Rwanda.

The holding Company and its subsidiaries are focused on government operations, and work only for international governments, international financial institutions and non-governmental Organizations.

Lonestar PLC - the group's public procurement company is one of the largest in Europe. [www.lonestarplc.com](http://www.lonestarplc.com)

Together the group companies effectively integrate a wide range of resources and core competencies to provide superior solutions that exceed our customers' needs and expectations.

## Our Home | Malta

We are incorporated in Malta; Our Head Quarters are in the ancient city of Valletta, the capital of Malta.

Malta is famous for being the former strong-hold of the Crusader Knights of Malta, but today it is a thriving member of the European Union with a growing economy.

The Maltese archipelago is strategically situated at the centre of the Mediterranean, lying 93km south of Sicily and 288km north of Africa. The archipelago consists of three islands: Malta, Gozo and Comino with a total population of 400,000 inhabitants over an area of 316sq km and a coastline of 196.8km (not including 56.01 km for the island of Gozo).

Malta is the largest island and the cultural, commercial and administrative centre. Gozo is the second largest island and is more rural, characterized by fishing, tourism, crafts and agriculture while Comino is largely uninhabited.

With a superb climate, renowned coastline, a thriving tourist industry and 7,000 years of intriguing history, there is a great deal to see and do. The world famous Hypogeum selected as a place of World Heritage by UNESCO, prehistoric temples and grand palaces are but a few unique places.

The long relationship between the Islanders and the various nationalities that occupied Malta over the centuries has created a marriage of styles and traditions, giving the Islands a fascinating eclectic culture.

With membership of the EU there is a well established and growing International business community attracted by the good communications and benign commercial environment.

## Our Philosophy

Recognizing the growing need for proven and effective security and emergency response solutions, Bureau Securitas aims to be the provider of choice. International threats and vulnerabilities present complex challenges that many organizations and companies fail to successfully anticipate.

Utilising the group's market penetration and governmental links in a wide number of countries Bureau Securitas and partners are focused on developing superior security and emergency management solutions to mitigate these challenges by working closely with our customers.

We are guided by the principles of technical excellence, integrity, accountability and customer satisfaction.

## Our Vision and Shared Values

### Vision

To become a leading provider of Security Advisory Services and Turnkey Security Solutions.

### Shared Values

#### ***Customer Focus:***

Our main objective is to understand and interpret precisely the customer's needs. To create a relationship built on mutual trust and understanding.

#### ***Performance Focus:***

Our goal is to encourage and enhance customer participation in order to deliver quality service in the best possible way. Our performance reflects the quality of service we provide. We strive to deliver.

#### ***People Focus:***

We pride ourselves in having the best possible people harnessing a wide spectrum of capabilities, adding extra value to our operations. Our people are our most important asset.

#### ***Integrity Focus:***

We stand for what we serve and believe in. Our proven track record and that of our people speaks for itself.

## Bureau Securitas - Our Management Team

### **Robert Hudson** : Managing Director

Robert Hudson served as a commissioned officer in the Royal Marines for 10 years and saw active service in Aden and Oman. During the Dhofar war he commanded the Sultan of Oman's Coastal Patrol as well as serving as a Company Commander in The Northern Frontier Regiment. He qualified for Special Boat Service and commanded an operational unit.

With experience gained in the Merchant Navy and Royal Marines he has been involved at senior executive levels in the Offshore Oil & Gas Industry over a period of 20 years. Principally involved in Sub Sea Construction, Diving Vessel management and manned and unmanned submersible operations. In 1995 he was a founder member of a deep water cargo recovery and salvage company and planned and managed the worlds deepest bulk cargo recovery at 3,800 metres.

Since 2003 he has been active as a maritime and general security consultant to clients operating in hostile environments. He has developed considerable commercial experience in military and security equipment sourcing and procurement.

More recently Robert Hudson has been Country Manager for a British Security company operating in Baghdad and Kabul.

He was involved as a maritime consultant with Hart Security for the IMO ISPS legislation implementation on the world wide Merchant marine fleet and latterly as Project Manager for Hart in Basra providing security services and advice to US clients during reconstruction activities.

Hudson contributes many years of executive experience in challenging military, maritime, commercial and security roles.

## Non-Executive Directors & Advisors

### **Brigadier Aldwin Wight**, OBE, MC (retd.)

Brigadier Aldwin Wight is the Chairman of Arlington, having formerly been the Deputy CEO of Kroll Security International, focusing on Business Development.

Aldwin served in the British Army for twenty two years, predominantly as an officer in the Special Air Service (SAS), which he commanded in the early 1990s. During his time in Special Forces he saw operational service in many parts of the world, including the Falklands conflict; for his service there he was awarded the Military Cross. He later devised and oversaw UK military anti-narcotics policy for support to the government of Colombia. As the SAS Commanding officer he was responsible for the Regiment on its first ever deployment in support of the UN - the opening up of the Muslim pockets in Bosnia in 1994. He received the OBE in 1995.

Away from Special Forces, he served as Chief of Staff of Britain's only airborne brigade, and was both a student and an instructor at the Army Staff College. He held a number of other high profile staff appointments, including Deputy Chief of Staff Special Forces during the Gulf War, Military Assistant to the General Officer Commanding Northern

Ireland and Colonel Planning Staff - a post responsible to the Commanders-in-Chief for all the UK's military contingency plans.

After leaving the British Army in 1997, Aldwin commanded the Sultan of Oman's Special Force as an Omani Brigadier. He devised and implemented a five-year plan, which achieved a complete regeneration of the two thousand man force. He was present on the National Security Council of Oman for all security and counter-terrorist issues. As such, his understanding of Middle-Eastern affairs is profound. He was awarded the Military Order of Oman in 2001.

***Col. Tim Collins***, OBE (retd.)

Tim was commissioned into the British Army in 1981 and joined the 2nd Battalion, Royal Irish Rangers then serving in Berlin. After completing several operational tours of duty including Northern Ireland, the Falklands Islands and Cyprus, where he was an aide to the Chief of Staff in the UN in Cyprus, he served with 22 SAS including the first Gulf War. He was selected for promotion to Lieutenant Colonel at 38 and was posted to London in Dec 1998 once more to serve with special forces.

After Promotion to Colonel of the First Battalion Royal Irish Regiment, he was Project Director for a Peace Support Training Centre in Sarajevo before taking up the appointment of Colonel in Charge of training in HQ Land Command in Dec 2003. He retired from the Army in 2004 and is now an author and broadcaster. He has recently published his first book 'Rules of Engagement', an account of his time in command. Tim is one of the world's leading specialists in Counter-insurgency using a network of informants, to penetrate and neutralize terrorist cells, a tactic that he, with others used with devastating results on the IRA. Subsequently, he was appointed as advisor by the US army to replicate the same tactics in Anbar province in Iraq, an assignment he carried out effectively, making Anbar, one of the first provinces to be made safe for ordinary Iraqis.

Tim is remembered for his eve of battle speech

([http://www.presentationhelper.co.uk/colonel\\_tim\\_collins\\_speech.htm](http://www.presentationhelper.co.uk/colonel_tim_collins_speech.htm)) to his men, which Prince Charles described as exemplifying what makes the British Army one of the best in the world.

***Colonel Alberto Nencha***

Colonel Nencha retired as the Head of International Operations of the Guardia di Finanza, having been involved in anti-terrorist, counter insurgency, anti-narcotics and anti human trafficking operations in the Balkans and Northern Africa. He has substantial experience in post conflict reconstruction projects, capacity building and training, as well as UN operations, having been involved in the setting up of Guardia di Finanza operations in Romania and Albania. Colonel Nencha is an advisor to Bureau Securitas and to the British Borneo Group.

***Michael J Halligan***, B.A. PGCE

Mr. Michael Halligan served in the British Army for nine years. He served in the Special Air Service (SAS) from 1982-1989. Mr. Halligan also served for another nine years at the Merseyside Police force. His career continued as Training and Development Manager for Special Projects Security up until 2002. Mr. Halligan has since become company chairman for Controlled Solutions Group and has been involved in consultation services in the England and Wales Cricket Board (ECB), Korean and Japanese Football Associations, Tunisian and Libyan Football Associations. Mr. Halligan was in 2007 appointed as Project Manager and Chief Instructor for the ICC Cricket World Cup.

## Our Security Solutions, Our Services

Our services are designed to be flexible, to meet the individual needs of our customers, and include:

### Risk Assessment

Assessing risk is a critical step in the risk management process. Government agencies and private corporations must consider risk when deciding what security controls to implement. For example, societies have an increasing reliance on automated and interconnected systems to perform essential tasks including national defense and welfare.

Bureau Securitas is fully able to provide comprehensive risk assessment of critical infrastructure and processes to determine and mitigate major risk factors, threats, vulnerabilities, and the effectiveness of current and proposed safeguards. By employing Bureau Securitas' risk-based identification approach, our customers ensure adequate security and emergency response.

Our detailed risk assessments typically include:

- A high-level profile of the current security posture
- Highlighted areas where improvement and/or modification is needed
- Recommendations for cost effective corrective actions, and analysis of potential results
- An easy to follow executive management "road map" for overall security improvement

### Intelligence Fusion

The recent heightened global security threats place a greater emphasis on the role of intelligence and its application to international security and emergency response.

Bureau Securitas' ability to obtain information from existing world-wide intelligence assets, law enforcement agencies and other resources provides relevant and critical information necessary to improve situational awareness and enables better informed decisions regarding security measures.

### Security and Emergency Management Consulting

Emergency management is the discipline of managing and avoiding risks. It involves preparing for, providing support and responding when an unexpected event occurs. Effective emergency management relies on thorough integration of emergency plans at all government and non-government levels.

Bureau Securitas provides both leadership and expertise in comprehensive emergency management. Through strategic partnerships, innovative programs and a collaborative policy, Bureau Securitas provides advisory consulting and services to enable customers

to effectively manage crisis situations. Our services are designed to coordinate government agencies, volunteer organizations, and businesses to mitigate, prepare for, respond to, and recover from the effects of emergency situations and disasters.

A comprehensive emergency management program is crucial to business continuity. By combining the four elements of emergency management (mitigation, preparedness, response and recovery), our goal is to provide our customers with an integrated approach to the management of emergencies including:

- Designing and engineering solutions to meet specific emergency scenarios
- Developing communication capabilities that include telephone, cellular/PCS, two-way radio, patching equipment, video teleconferencing, satellite communications air and ground communication interoperability, and television channel centralization
- Recommending and providing computer equipment with appropriate network connections
- Developing emergency management software to ensure seamless operations and communications between all levels of respondents
- Providing map displays to show geographic attributes and dynamic data (status boards) to track situations as they develop
- Providing mobile command centers with data links from the situation scene to the emergency operations center
- Recommending and provide emergency management team training, community emergency response team training and certifications
- Conducting urban search and rescue incident support team training
- Developing response plans

Bureau Securitas' comprehensive emergency management programs encompass specific planning areas including:

- Hazard analysis and risk assessment
- Threat assessment
- Disaster preparedness, response and recovery
- Mitigation planning
- Terrorism planning
- Command and control
- Emergency operations center vulnerability and capability assessment
- Crisis and consequence management
- Business continuity planning
- Continuity of operations
- Search and rescue
- Occupational safety and first aid
- Training, exercises and drills

## Advanced Security Training

Bureau Securitas provides advanced security training to law enforcement agencies, government agencies and private industries. We offer a variety of flexible and innovative training formats able to meet the individual needs of students, instructors and other institutional support personnel. Core training courses include:

- Personal Security Detail and Mobile Team Training
- Tactical Weapons Training, Sniper/Long Range Shooting, Advanced Marksmanship, Weapons Familiarization Training and Baton Tactics
- Surveillance Detection/Counter-Surveillance Courses
- Arrest Control – Use of Force and Defensive Arrest and Control Tactics
- Off-Road Driving, ATV, and Motorcycle Courses
- Criminal Intelligence Analysis
- Cyber Crime Investigation
- Combat Medical Training
- Crime Scene Analysis
- Improvised Weaponry

Each of our training courses begins in the classroom, assessing student capabilities, and ultimately moves to practical live exercises. Our instructors understand the nuances and evolving nature of current military and law enforcement security conditions. We provide training scenarios that simulate real world situations and can easily augment training designs to simulate threatening encounters forcing students to use their skills to quell hostile situations without casualty.

## Immigration and Recruitment Screening

Forged documentation is used by many immigrants and persons seeking employment in countries other than their own. This is not only unfair to well qualified applicants, it also threatens that country's security when used by criminals and would-be terrorists to fabricate identities and past experience.

Bureau Securitas uses established resources and international partners to provide world-class immigration and recruitment screening. The best defense against political exposure, unenforceable contracts, organized crime, would-be terrorism and other common threats from fraudulent employment practices is to know the background of your employees. Bureau Securitas provides legal and discrete due diligence services including:

- New employee screening and background intelligence verification
- Visa and work permit processing
- Verification of educational and professional credentials
- GlobalOne Check (a global criminality and regulatory check)
- Recruitment and verification of third-country nationals

Our reports are comprehensive and current, containing all information available from the public domain, government records, foreign language media and Internet searches, industry sources and compliance databases.

## Mobility and Logistics

Bureau Securitas delivers a full range of transportation and logistics solutions including equipment, material and personnel. With extensive experience available in house and through our strategic partnerships, we can provide a variety of unique transportation and logistics services including:

- Supply chain management
- Full procurement and logistics capability
- Tactical and non-tactical vehicles
- Construction and agricultural equipment
- IT equipment and office supplies
- Power generation and telecom equipment
- Management Team

## Special Operations

Bureau Securitas is building a reputation for providing time-critical, cost effective, efficient solutions that exceed the requirements of our customers. Through innovative thinking and efficient use of resources, we create solutions that achieve results.

Our special operations solutions include force protection, third-country national and local-national security management, personal security, convoy security and specialized training services.

Our turnkey solutions include:

- Aviation services; personnel, baggage and cargo screening
- Airport, seaport, rail and maritime security
- Transportation management
- Closed-circuit television and surveillance
- Biometrics solutions
- Border control systems
- Construction site security

## Security products and Equipment

Bureau Securitas, through its strategic and regional relationships with selected equipment manufacturers across a wide range of products and countries, can provide a variety of state of the art security products and services that enhance our ability to provide total security and risk solutions.

Our products include:

### Detection

- X-ray scanning machines for various applications such as mail, personnel, vehicles and containers
- Radio active material detection
- Milliwave passive body scanners
- GPS tagging
- Short and Long distance passive screening systems
- Metal Detection systems
- Terahertz imaging systems

### Tracking

- Vehicle and Personnel Tracking systems
- RFID systems for asset tracking and identification

### Vehicles

- Military vehicles, new or reconditioned
- Security vehicles, to level B7 ballistic protection
- Commercial vehicles
- Construction vehicles and equipment

## Ballistic Protective Clothing

- Wide range of ballistic jackets and helmets using the latest materials such as Aramid, Dyneema.

## Military & Security non offensive equipment

- Uniforms
- Tropical protective clothing
- Cold weather protective clothing
- Boots for all applications
- Webbing equipment to any design
- Miscellaneous personal equipment items
- Riot Gear
- Binoculars
- NVG (Night Vision Equipment)
- Police equipment
- Etc..

## Electronic Equipment

- Radar systems, both military and commercial applications
- Communication systems, both military, commercial and civil defence
- Mobile ELINT systems
- Electro-Optic Equipment systems
- City Traffic/ Vehicle Control systems
- Airborne, Shipborne and Ground based IFF systems with secure mode
- Network security products
- Anti terrorism equipment systems
- Software solutions

## Marine

- Patrol Boats, military, police, customs, special forces etc.

We can also source and supply many items not listed above utilising our established network through our procurement company Lonestar Plc. ([www.lonestarplc.com](http://www.lonestarplc.com)) Please contact us with details of your requirement.
